

Foundation “Voice, Actually!”

Theatre

“Voice” as the form of communication and expression. We create music theatre concepts where the voice is central. “Voice, Actually!” designs original multicultural projects, mixing different forms of art with the voice. These concepts are made for theatre tours but they can be custom made as small or showcases suitable for every kind of event.

Workshops

“Voice” in the classical sense of the word. “Voice, Actually!” hosts workshops on vocal technique theatre, concerts, and lectures on voice related subjects. For personal expression or business related purposes, “Voice, Actually!” provides you with tailor made programs to suit every need of your company, your institution or even you, as an individual.

Si, Voce!

Community Art

“Voice, Actually!” stands for “giving a voice” by providing non-professional singers and voice students with the opportunity to perform in tailor made projects.

Charity

“Voice, Actually!” organises and hosts charity and benefits events where “Voice” is provided as a service of a good cause.
